## People in Need Ukraine

**People in Need (PIN)** is the biggest non-profit organization in Central Europe focusing on humanitarian aid, development, cooperation, human rights and social integration. PIN counts on a long-lasting presence in Ukraine starting from 2003, which allowed it to provide immediate humanitarian assistance after the onset of the conflict in August 2014. PIN has been implementing a broad range of emergency food, NFI, shelter, protection, livelihoods, WASH, medical and cash-based interventions along the two sides of the frontline in eastern Ukraine, both in the government and non-government controlled areas (GCA and NGCA).

PIN's early focus was on providing emergency assistance, but in 2016, the organization launched new initiatives—particularly in the Protection and Livelihoods sectors—which are aimed to support Ukraine's transition from emergency to early recovery and development.

In May 2018, People in Need together with three other international organizations including Médecins du Monde (MDM) and ACTED in partnership with IMPACT Initiatives and two national organizations Right to Protection (R2P) and NGO Forum (NGOF), launched the new ACCESS II project to ensure coordinated multisectoral humanitarian assistance for conflict-affected populations in eastern Ukraine.

Olena and her family come from Krasnogorivka village. They lost their house and business ventures (two grocery stores and a cafe) during the conflict. Olena recalls her past experience of overcoming difficulties: *“Initially we lived with relatives, but later decided to move on and relaunch their retail business.”*

Olena received a job creation grant from PIN and opened a grocery store in 2018. Currently she employs seven people across her two stores. Olena is making plans to employ more people in the near future.

## Water, Sanitation & Hygiene (WASH)

Several towns and villages throughout the east of Ukraine have been cut off from water access because of conflict. Having started with distributing water directly to affected communities, PIN is now reconstructing water supply and sanitary systems to secure access to water for the most severely damaged towns along the front line. PIN also distributes hygiene packages to populations lacking access to water and/or the means to regularly purchase items needed for daily hygiene.

- Water trucking
- Emergency repairs of WASH infrastructure
- Rehabilitation of sanitary facilities, water systems and heating system in social institutions
- Waste management
- Water tanks installation
- Sewage system rehabilitation
- Provision of hygiene items (households and social institutions)
- Hygiene promotion sessions

## Shelter

For conflict-affected populations, PIN aims to secure adequate housing in line with the standards of the Shelter Cluster, Sphere, and the Ukrainian government. This is accomplished with repairs of damaged homes and/or cash grants to pay for repairs or cover rent in a new shelter. PIN also ensures homes throughout the conflict zone are adequately heated in the winter by providing heaters/stoves and heating fuel.

- Light/medium/heavy-scale repairs for private homes and apartments
- Glazing/window installations
- Rehabilitation of damaged social institutions
- Provision of solid fuel for winterization of homes and social institutions
- Cash for shelter, cash for winterization
- Rehabilitation of apartments for IDP integration and social housing programs

## Psychosocial support

PIN provides psychological support to conflict-affected children and adults in remote locations close to the contact line where such services are either unavailable or inaccessible. PIN especially targets schools, orphanages, social services, culture venues, rehabilitation centers for the disabled persons and temporary accommodation for IDP(s), etc.

- Mobile Psychosocial Assistance (PSS) and child protection services
- Conducting trainings on PSD and training session for specialists
- Hot line of psychosocial help-0 800 210 160 (Free, 24 hours, anonymous and confidential)
- Grant support for child-friendly centers, community-based social initiatives, NGOs, including individual support for vulnerable and disadvantaged people
- Increased awareness of prevention and protection of gender-based violence and support for victims

**66,663**  reached **GCA | NGCA 32,678**  reached

## Food Security/Multipurpose Cash (MPC)

PIN covers a broad array of vulnerable populations with food vouchers/hygiene vouchers in NGCA and with multipurpose Cash (MPC) grants in GCA. With MPC support, people and households are able to meet basic needs.

- Food vouchers to be redeemed at local shops
- Multi-purpose cash grants
- In-kind food aid for vulnerable households and/or institutions during emergency situations

**343,462**  reached **GCA | NGCA 393,757**  reached

## Livelihoods

PIN promotes the development of self-sufficiency of the Donbass population through grants, training and consultation programs. This is aimed at increasing the efficiency of food production by rural households, establishment and development of micro-entrepreneurship for the urban population; and creation of workplaces for internally displaced people (IDPs) and the residents of the grey zone.

- Livelihoods restoration & development of micro-business grants
- Job creation grants
- Agriculture development grants
- Agriculture development trainings
- Self-employment and entrepreneurial business training and webinars
- Creation of self-reliance rural communities in the grey zone
- Creation and development of university

**16,694**  reached **GCA**

## Advocacy

People in Need together with ACCESS partners engages in extensive advocacy efforts to bring attention to the ongoing humanitarian crisis in Ukraine. These efforts are aimed at influencing the decision-making process on the international and national levels in Ukraine to achieve positive change.
